

Take our Brooklyn Health Equity Index (BKHI) Survey!

? What is the BKHI Survey?

OBH is committed to ensuring equitable healthcare for Brooklyn communities. The brief Survey will provide patients with a chance to tell us what we need to work on, to ensure better quality of care and improve the health of our community.

✓ How to Take the Survey...

After your visit we will call you and send a text, asking about your experience with our healthcare services. You may complete the survey in a few minutes on the phone or via a text link. The BKHI survey is your opportunity to make real change in the way healthcare is delivered. Your Voice Matters! Our survey runs from May 15th to June 15th.

This survey is coordinated in partnership with Downstate Health Sciences University and the Arthur Ashe Institute for Urban Health

If you visit select sites at one of our One Brooklyn Health System hospitals (Kingsbrook, Brookdale or Interfaith) as a patient between May 15 and June 15th, we kindly ask you to complete the Brooklyn Health Equity Index (BKHI) Survey. We estimate the survey will take about 10-minutes. Tell us about your visit. Your voice matters! The BKHI is one of the tools we are developing to improve the quality of care for our patients. Your answers to this brief survey will help us understand how you were cared for and treated during your visit. Here is how you can participate. After your visit, you will receive a call and/or a text that will take you to the BKHI survey. We are grateful for your participation.
